The **Unique Pools 2021** edition is filled with dreams, projects and solutions for all sorts of private pools. Discover them!

The **Trésor** collection, our latest launch, will take you to the fascinating islands of Indonesia. Its two colors imitate the texture of Sukabumi stone. **Trésor Bali** is the most exotic color by **Rosa Gres**. When placed in the tank it gives the water a bright turquoise hue. **Trésor Java** is a dark color that evokes the volcanic land of Mount Bromo, providing a feeling of serenity.

Explore the new solutions we have created to inspire your dreams. The **48.8 x 97.9 x 1** format: elegant, compact and perfect for the tank and deck. The **Slim System** is ideal for deck-level pools with narrow decks. The **Smart System** provides a hidden overflow to avoid splashes. The **Zen System** is designed for building elevated pools. And the **121 CM** channel drain has a new design that improves its esthetics and practicality.

We hope our ideas help inspire many new and wonderful projects. Thank you for being here!

Slim System

The innovative Slim System limits the impact of reduced space to create a deck level pool with a practical and functional way of working.

With this solution, the water level is above deck level of the decking and creates the perfect mirror effect.
