## DADA PIÙ

Formidra renews its flagship model, the DADA. Available in straight or curved version, it combines Formidra hybrid technology with a capacity of 40L, guaranteeing temperature showers, whatever the number of users. The high-end finishes of its stainless steel-look mixers, its adjustable shower head and handshower make it an exceptional object.

### FORMIDRA INNOVATION HYBRID TECHNOLOGY

The DADA line not only includes FORMIDRA solar technology but also a hot water inlet from the main supply of the house. This way, you benefit from 100% solar hot water and from hot water drawn from the domestic supply when necessary.

## DADA CURVE

Also available as a curved version, the DADA CURVE stands out thanks to its taunt lines and its extremely flat, mirror-effect square showerhead.

Thanks to its slender curves, it will naturally blend in to any garden while adding a designer touch

### SPECIFICATIONS
